Juragua, Cuba, June 25, 4 p.m., per teer cavalry.

Private N. H. Cochrane, First volun-(Copyright, 1898, by the Associated Press.) Associated Press Dispatch Boat Dandy (via Kingston, Jamaica, June 26, 10 a. m.)-The initial fight of Colonel Wood's rough riders and the troopers of the First and Tenth regular cavalry will be known in history as the battle of La Quesina. That it did not end in the cavalry. Quasina. That it did not end in the complete slaughter of the Americans was not due to any miscalculation in Private J. F. Steadman, First volunteer the plan of the Spanish, for as perfect cavalry, Captain McCormick and Captain Luna of the First volunteer cavalry, who were reported yesterday as among the dead or wounded, were unharmed, as was also Colonel Wood, whom Adan ambuscade as was ever formed in e brain of an Apache Indian was spared, and Lieutenant Colonel seseveit and his men walked squarely into it. For an hour and a haif they held their ground under a perfect storm of bullets from the front and sides, and then, Colonel Wood at the right and Colonel Roosevelt at the left, led a charge which turned the tide of battle

charge which turned the tale of outle and sent the enemy flying over the hills toward Santiago.

It is now definitely known that 16 men on the American side were killed, while 80 were wounded, or are reported to be missing. It is im sable to cal-culate the Spanish losses, but it is known they were far heavier than those of the Americans, at least as re-gards actual loss of life. Already 37 dead Spanish soldlers have been found dean spanish somers have been found and buried, while many others are un-doubtedly lying in the thick underbrush on the side of the gully and on the slope of the hill, where the main body of the enemy was located. The wound-

ed were all removed.

A complete list of the killed, wounded and missing on the American side, revised to 4 p. m., Saturday: KILLED.

Captain Allyn K. Capron, First U. S. Captain Allyn K. Capron, First U. S. V. cavalry.

Absolute Relinquishment of Sover-

Absolute Belinquishment of Sovereignty Over Those Islands Must Be the Basis of Negotiations, Says a Cabinet Member—Future Disposition of the Islands a Problem.

New York, June 27.—A special to the Tribune from Washington says: In view of the increasing frequency with which rumors of possible peace conditions are entering into the discussion of semi-official and inspired European journals, considerable significance is attached to the statement by a member of the cabinet that no proposition would be for a moment entertained by the United States at this time which did not involve Spain's absolute relin.

The first section had stopped to take water and had whistled to start on, when the second section rounded the start on, when the second section rounded the navy department to be a cruel change. No word has been received from Sampson today, and with a cable the navy department to be a cruel sharp curve in the frack just before the town is reached, and dashed into it.

The rear of the first section was the first section rounded the navy department to be a cruel change. No word has been received from Sampson today, and with a cable the navy department to be a cruel change. No word has been received from Sampson today, and with a cable the navy department to be a cruel change. No word has been received from Sampson today, and with a cable the navy department to be cannet on the navy department to be cannet. No word has been received from Camps to be a cruel start on when the second section was the state of the first section was the start on the from Sampson today, and with a cable the navy department to be cannet on the cannet on the nave department to be a cruel the navy department to be cannet on the nave department to be a cruel the nave department to be a cruel cannet. No word has been received from Sampson today, and with a cable the nave department to be a cruel cannet. No word has cannet on the nave the nave department to be a cruel cannet on the n did not involve Spain's absolute relinquishment of sovereignty over Cuba, Porto Rico and the Philippine islands. The probable attitude of the United States to these former colonial possessions of Spain in the future, this authority declined to discuss, but in his opinion the complete eradication of Spanish influence and interest, so far as spanish inducate and interest, so in ag-these islands are concerned, had al-ready become a foregone conclusion, and the United States would not at any time hereafter permit Spain to exter-into any negotiation regarding them. Regarding the ultimate terms of peace which the United States may find it necessary to exact in case the expeace which the third States may indi-it necessary to exact in case the ex-pensive conflict is prolonged many months, involving the necessity of ex-tended American operations against the peninsula itself or its closer co-lonial establishments, only the most indefinite, discussion is just now in-dulged in.

Surface Tourist American foothold, as well as of their ill-governed estab-lishment in the Pacific, has been fallen trees. At the bottom of these hills run two roads, along which Lieutenant to be laid open to the cavalry satisfies and Tenth cavalry and the private stark to be laid open to the cavalry satisfies and Tenth cavalry and the private stark to be laid open to the cavalry and the private sta

in the most unequivocal and decisive manner.

The officials of the state department exhibit confidence, apparently based upon convincing assurances, that Spain has in reality less to expect from one or two European nations than is warranted by the interpretation put upon various statements attributed to leading men or published in papers having the shaky reputation of tremendous inspiration, and little concern is now displayed in this country over the emanations from sources which have been more than once discredited in the last six months. The persistence with which the Spaniards have been trying to make capital out of the unfriendly expressions in certain European localities, considered to be commercial rivals of the United States, has ceased to be regarded as more than amusing, or in some recent instances perhaps pathetic.

Hiram F. Davis, troop C; ankle

Henry Steltz, troop C; leg broken. Will Grovenor, troop C; leg bruised. a

W. H. Robins, troop A; ankle dislo-

Joseph Wilkinson, troop L; slightly injured.

Colonel Torrey was in the state room of the sleeping car, which was separated from the engine of the second section by a short caboose. The force of the impact carried the first section forward 300 yards. When the train stopped, Colonel Torrey found himself outside, beneath the wreckage, and although his feet were badly bruised, he managed to clamber up the embankment. His other injuries are several bruises about the head. The injured are receiving all possible attention.

Later—The englineer was seen to-night, but was unable to talk. He received internal injuries that have ceived internal injuries that have caused several hemorrhages.

of the Victims Were From Laramie
—Engineer Held Responsible For the Accident.

Tupelo, Miss., June 26.—A railway accident occurred at this place at 3:40 this afternoon, in which four members of Colonel Torrey's regiment of rough riders, from Cheyenne, Wyo., lost their lives, and others received fatal injuries.

The accident occurred on the Kansas City, Memphis & Birmingham railroad. The first section had stopped to take water and had whistled to start on, when the second section reunded the sharp curve in the track just before the town is reached, and dashed into it. The rear of the first section was the sleeper "Seville," containing Colonel Torrey and his regimental staff. This

Spanish Vessels Signted.

London, June 26.—Lloyd's agent at Gioucester says the British steamer Discovery, from Rosario, May II, reports that on June 16, she sighted in latitude 38.22 north and longitude 14.25 west, a double funneled cruiser, presumably Spanish, escorting a tramp steamer with a black funnel with a white band. The vessels were steering weat and were proceeding at a speed of eight knots.
